Welcome to the Cowboy Bronze Line

With God's Help, I am a self taught artist of 5 years and have been fortunate enough to have designed sculptures for major equine breeds, and many wonderful people like you. Our career started out in the equine business in training and showing and then led us to develop the "cowboy bronze" line.

We try to keep an eye on the utmost detail & body style, to help satisfy the different breeds changing standards and needs. Our awards come in a variety of horse colors and events in reasonable price ranges.

Our line also includes the cowboy bronze collection with scenes from our Rusty Spur Ranch in the Ozarks.

The name reflects our ambitions. "cowboy bronze" any cowboy can afford them.

Clay
